Preparation and Installation Guide

Compatibility: This product fits jeep TJ or Jeep LJ. This Tire Carrier is designed to work with corner armor but can also be used on the stock body with the use of the provided spacer.

1. Prepare and Inspect: Unbox and inspect all components to ensure everything is included and free of damage.

2. Prep for Install: Begin by cleaning the area where the tire carrier will be mounted to. Place painters tape or similar on the tub to prevent scratching when installing.

4. Tail Lights: New tail lights will need to be purchased (MB6504) are designed to fit this kit. Stock tail lights will not work with this tire carrier.

Pro Tip: Use STEEL-IT paint, which can be welded through and easily touched up afterward.
