Preparation and Installation Guide

Compatibility: The MB1234 Series 6" Stretch Fender Flares fit Jeep YJ and Jeep TJ models. The MB1232 6" Stretch Corner Armor is currently compatible with Jeep YJ applications.

1. **Position Fender Flare:** Clamp the fender flare in place and carefully align the wheel opening with the cutout in the compatible corner armor.

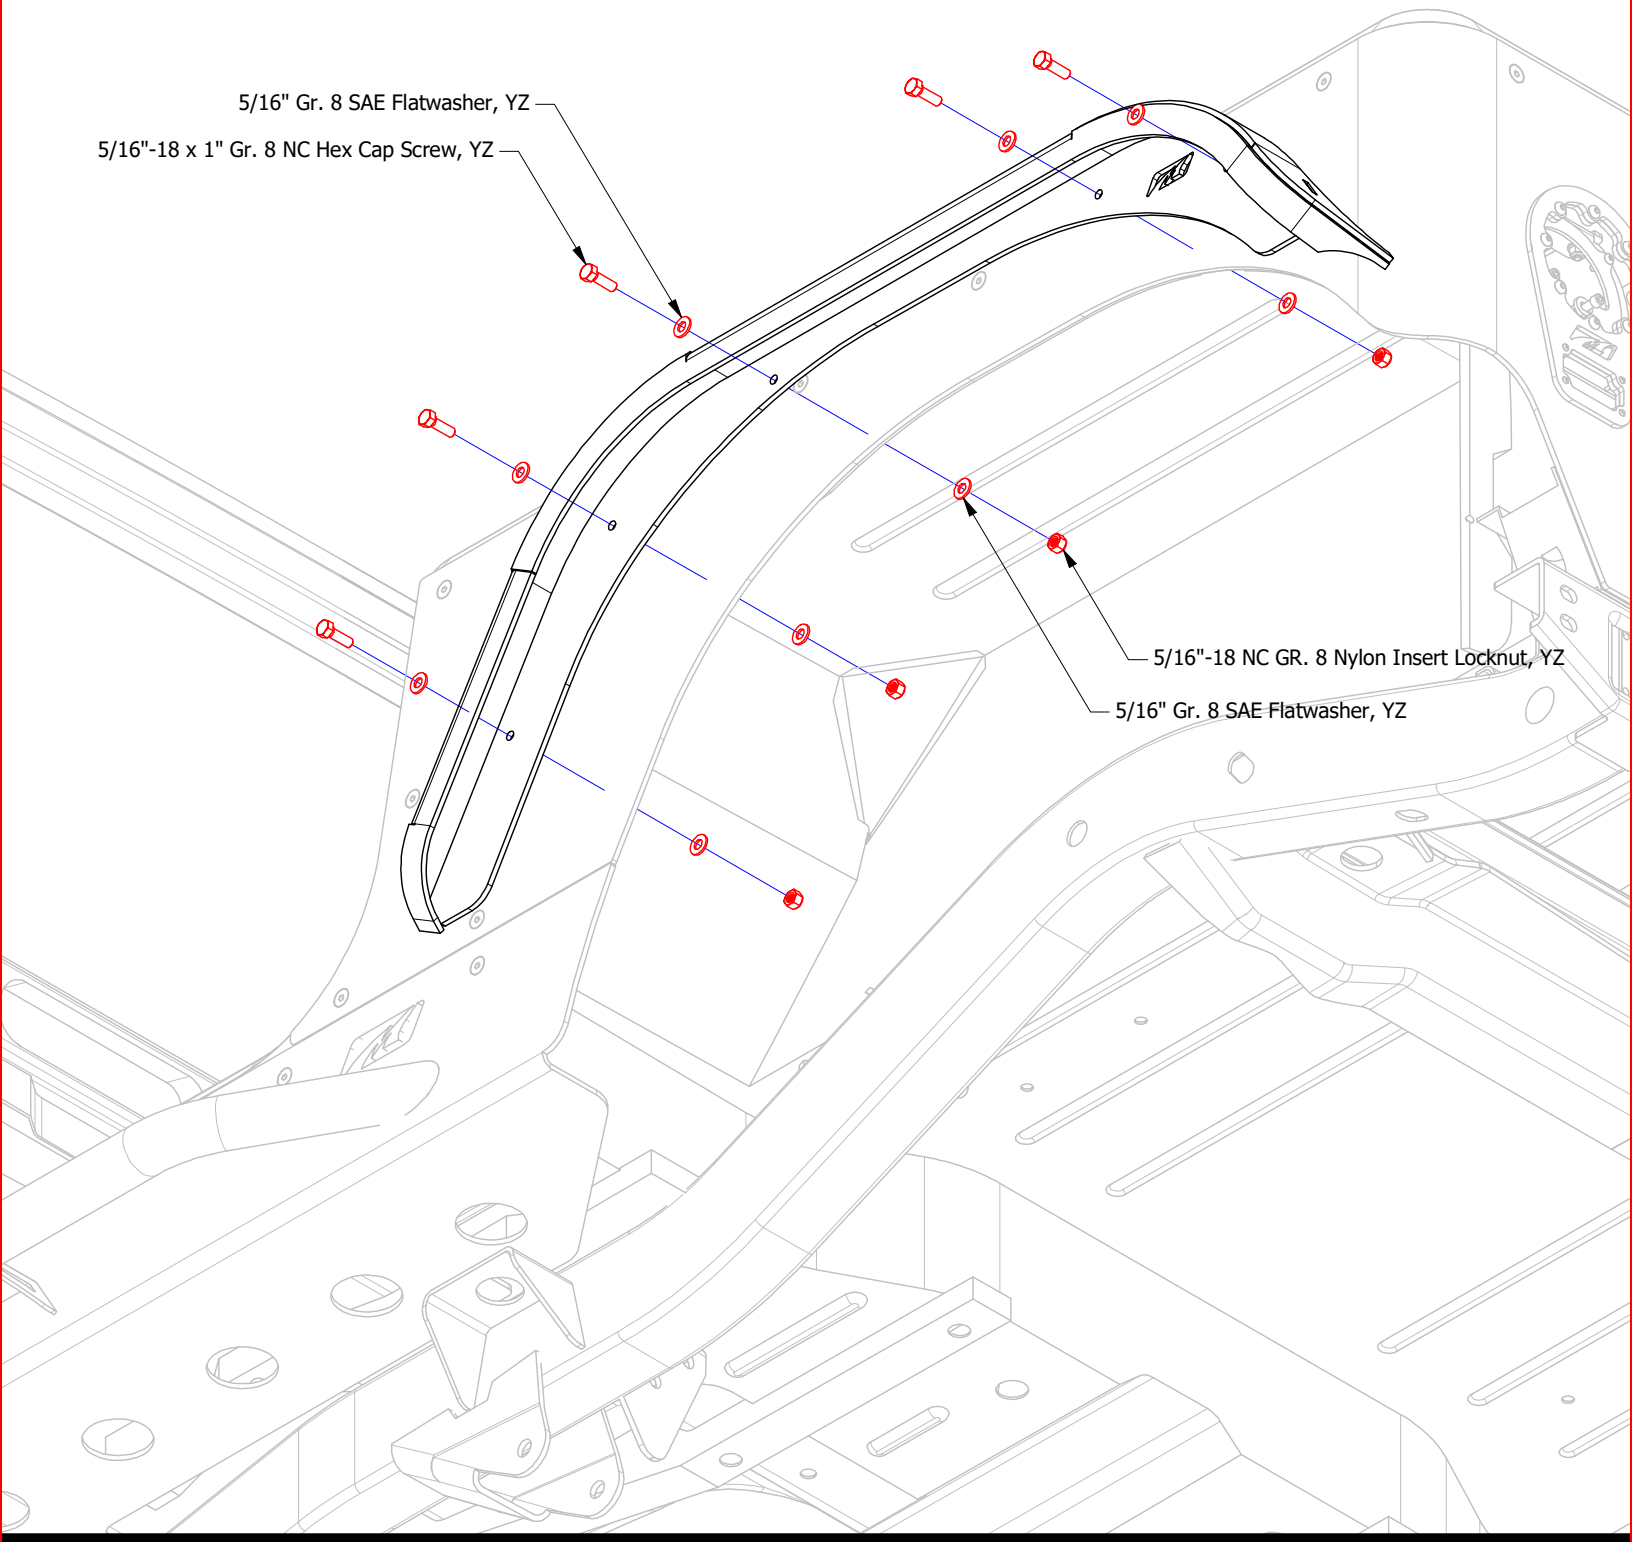

2. **Mark and Drill Holes:** Use the fender flare as a template to mark the mounting holes. Remove the flare, drill the marked holes, and deburr all exposed edges.

3. **Install Fender Flare:** Reposition the fender flare and secure it using the supplied hardware.

Pro Tip: Apply STEEL-IT paint or another corrosion-resistant coating to all exposed metal after drilling.
