Preparation and Installation Guide

Compatibility: These instructions cover both Motobilt Cowl Ditch Light Bracket kits. The MB2187 fits 2018-current Jeep JL, JLU, and JT models. The MB2196 fits Jeep Wrangler 392 and Gladiator Mojave models.

1. **Light Installation:** Install the auxiliary lights onto the brackets before final installation when possible. Light mounting hardware is supplied by the light manufacturer.

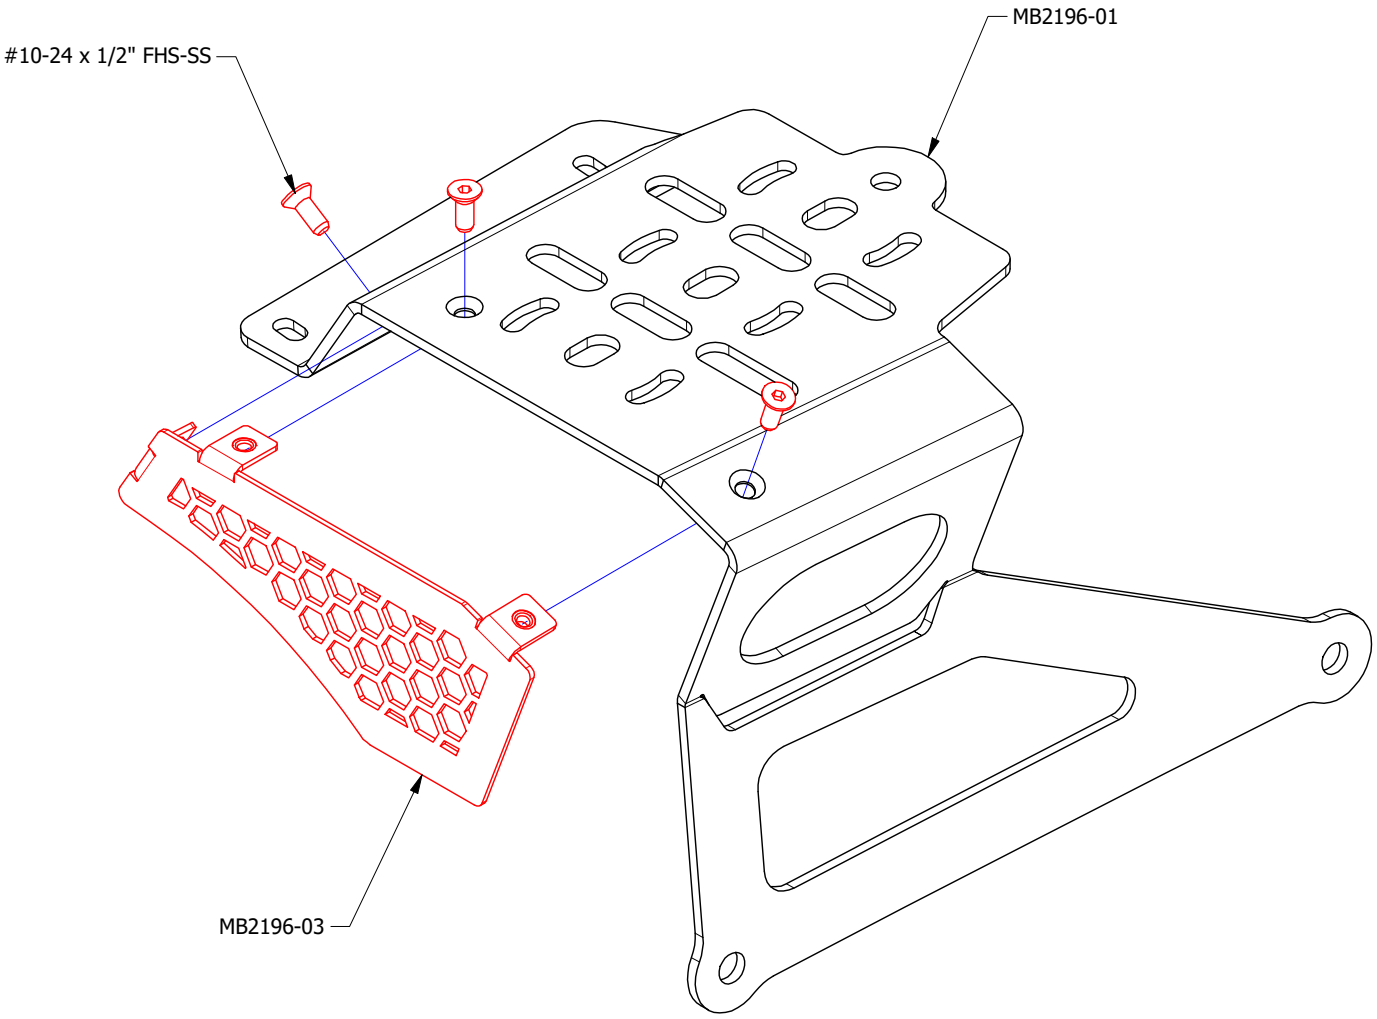

2. **Light Adjustment:** Leave the light mounting hardware slightly loose until the brackets are installed. Aim the lights to the desired position, then fully tighten the mounting hardware.

3. **Wiring:** Route all light wiring away from moving components, sharp edges, and high-temperature areas. Wiring and electrical connections are not included with this kit.

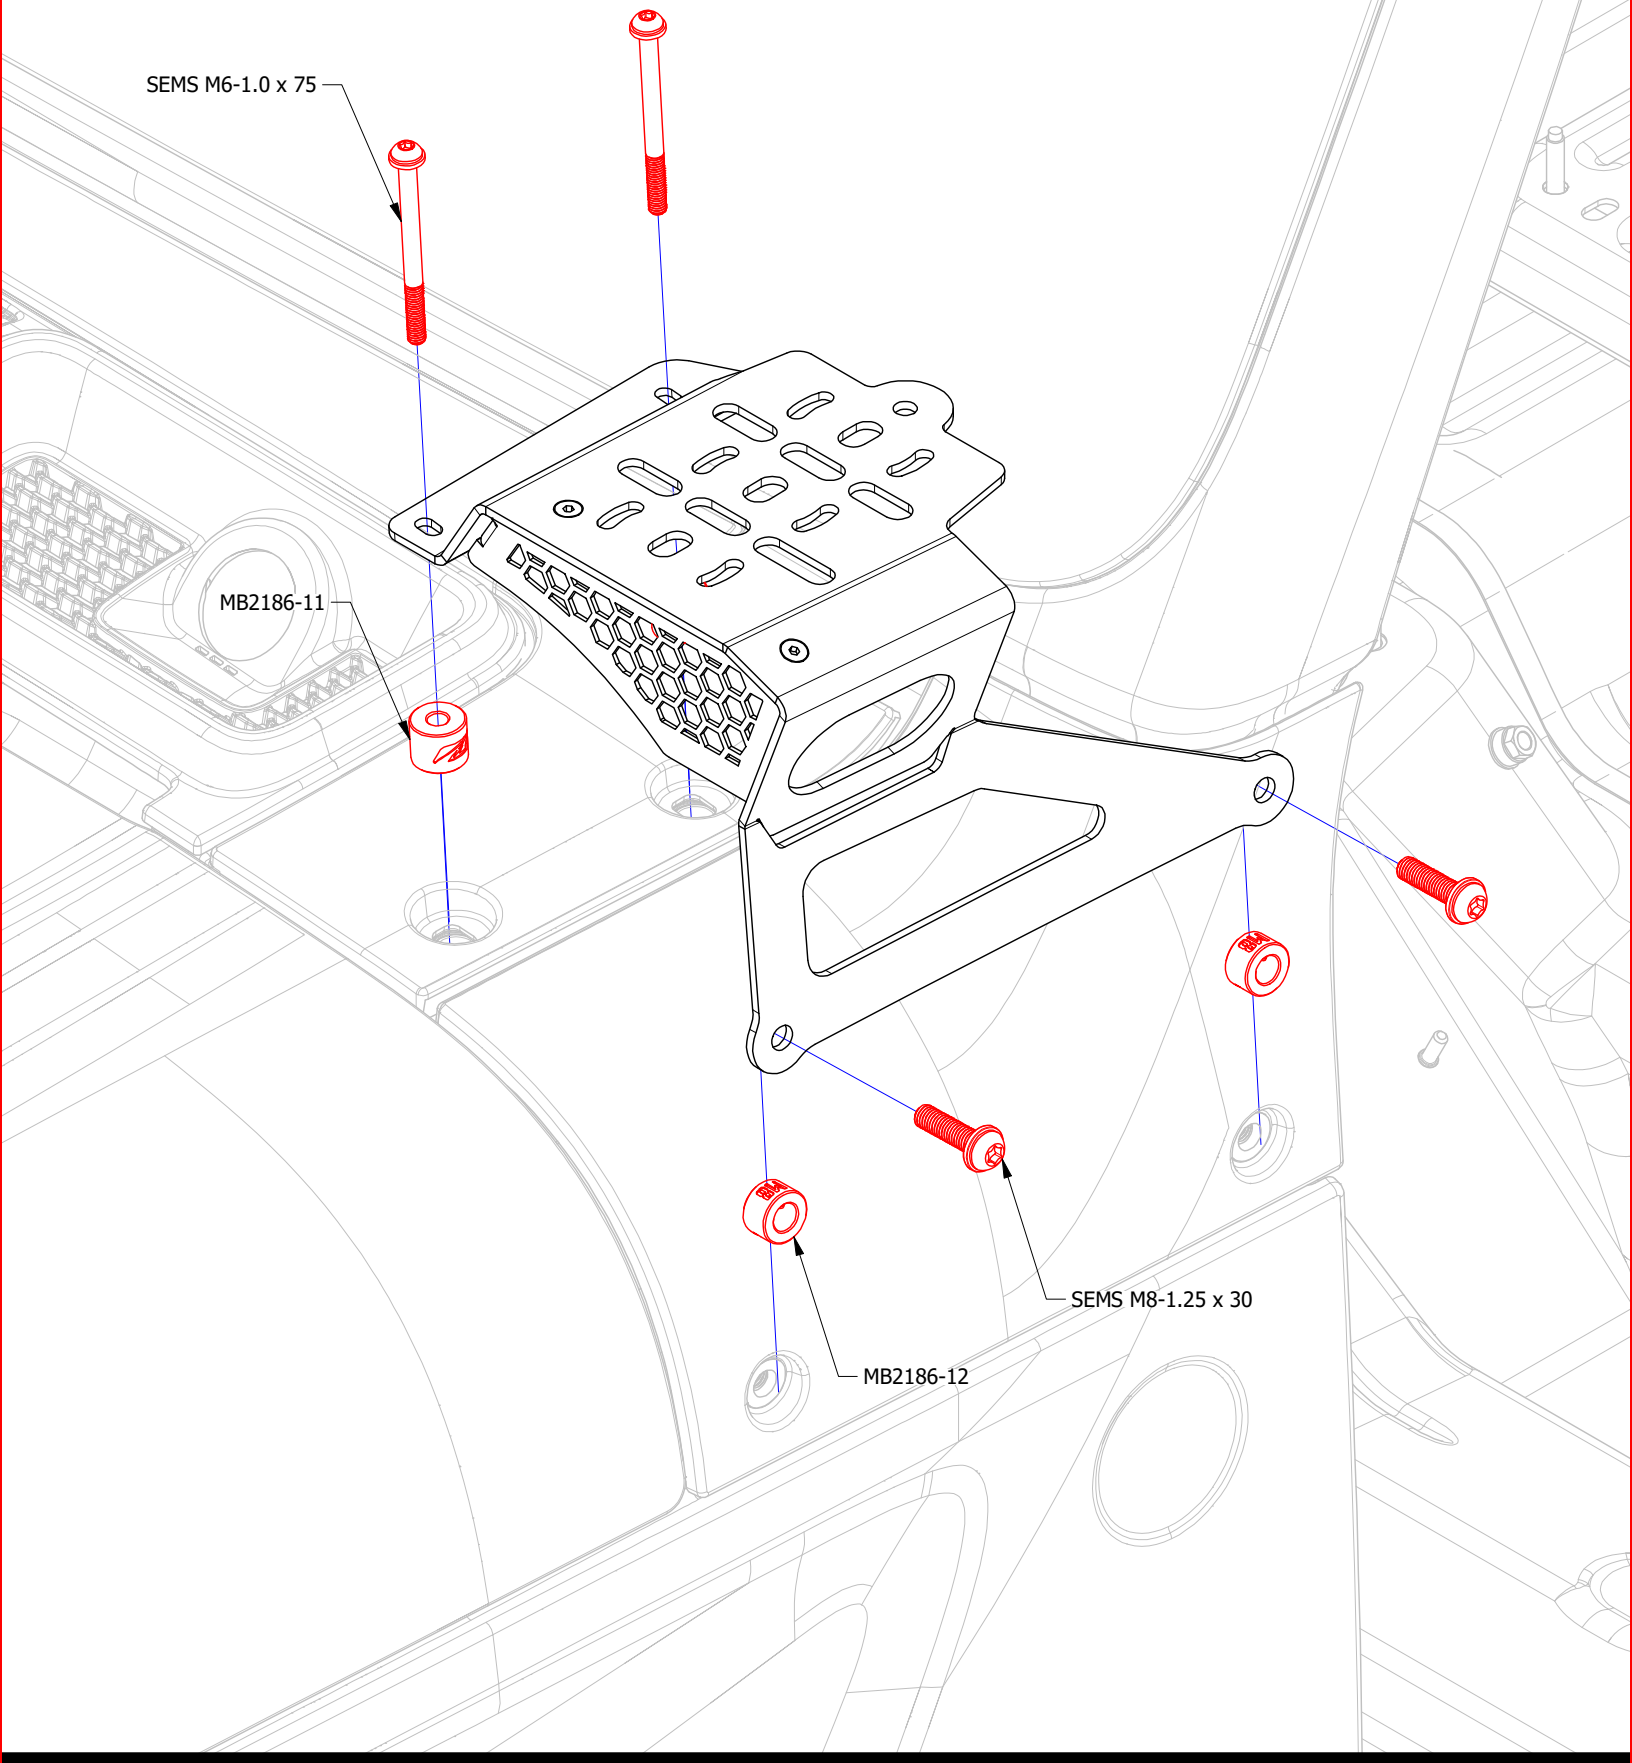

Pro Tip: Use STEEL-IT paint, which can be welded through and easily touched up afterward.

Note: Motobilt, Inc. products are intended for **OFF-ROAD USE ONLY**. See full legal disclaimer at the end of these instructions.
