Preparation and Installation Guide

Compatibility: The MB5558 is designed for use with Motobilt 2" roll cage kits, including JK, JL, and JT applications. Additional Motobilt 2" cage applications may also be compatible. This kit is designed specifically for SSV Works BR-2B65A speaker pods.

1. **Speaker Pods:** SSV Works BR-2B65A speaker pods are required and are not included with this kit. Install the Motobilt brackets to the speaker pods using the manufacturer-supplied hardware.

2. **Cage Mounting:** Installation varies by Motobilt cage kit. Some applications mount using the supplied tube clamps, while others attach to the overhead console using the supplied rivnuts and hardware.

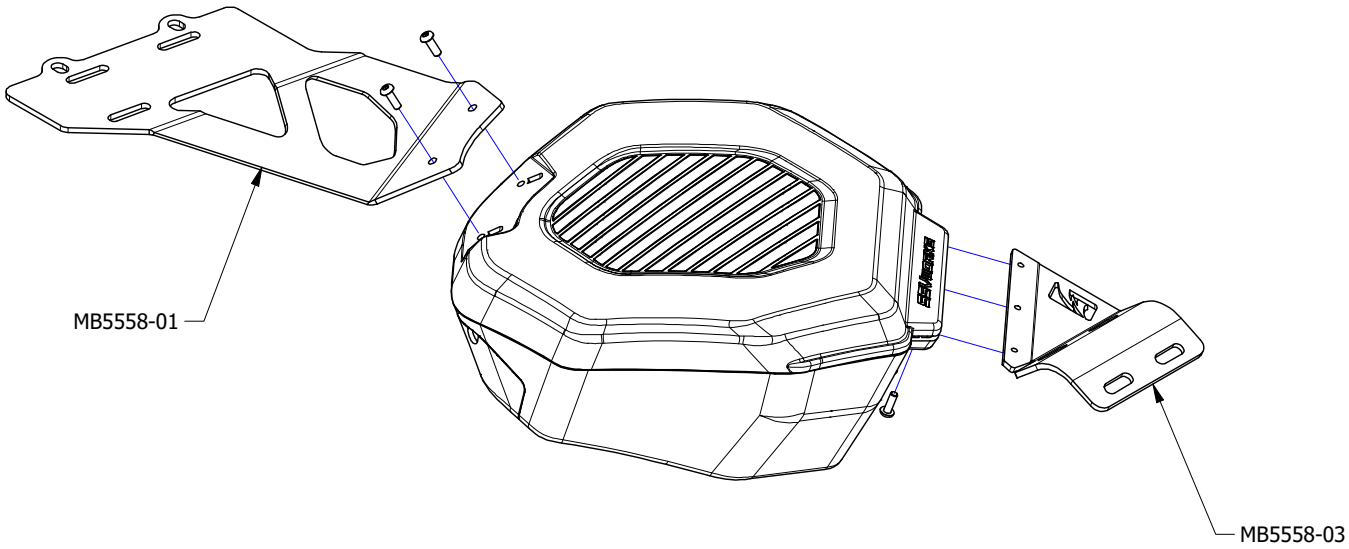

3. **Rivnut Installation:** Applications using the overhead console require drilling 25/64" holes and installing the supplied 1/4"-20 rivnuts.

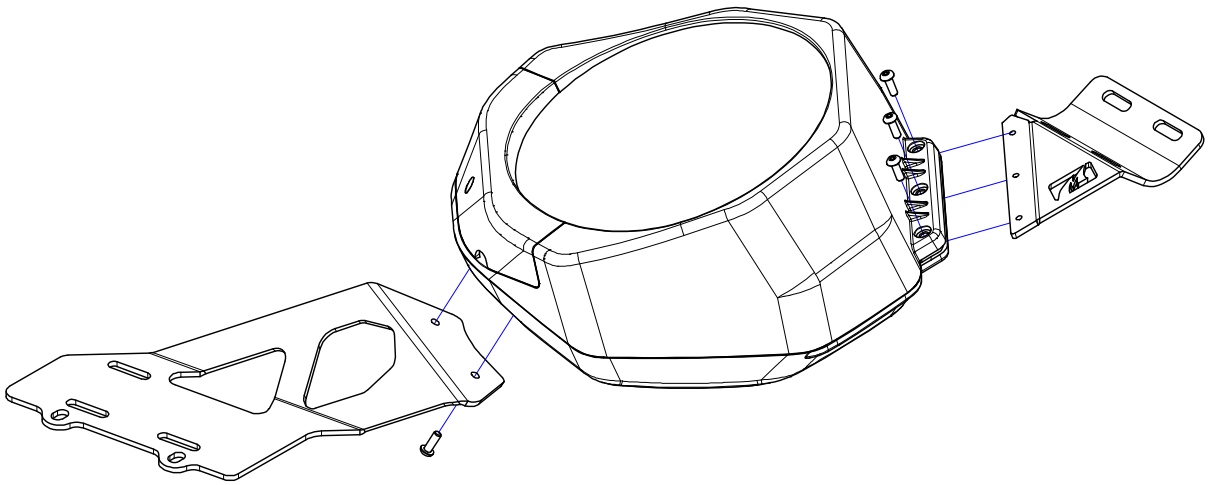

Pro Tip: Loosely position both speaker assemblies before final tightening to confirm clearance and speaker orientation.

Note: Motobilt, Inc. products are intended for **OFF-ROAD USE ONLY**. See full legal disclaimer at the end of these instructions.
